

Amendments to the Specification

Please replace paragraph [0029] on page 9, with the following:

The terms "treating" and "treatment" as used herein refer to reduction in severity and/or frequency of symptoms, elimination of symptoms and/or underlying cause, ~~prevention of the occurrence of symptoms and/or their underlying cause,~~ and improvement or remediation of damage. Thus, for example, "treating" a patient involves treating ~~prevention of~~ a particular disorder or adverse physiological event in a susceptible individual as well as treatment of a clinically symptomatic individual by inhibiting or causing regression of a disorder or disease.
